## Thunderstorm Potential: Tonight

Gusty winds possible - Severe storms not expected

Weather Forecast Office  
Amarillo, TX  
Issued Jul 26, 2021 4:18 AM CDT

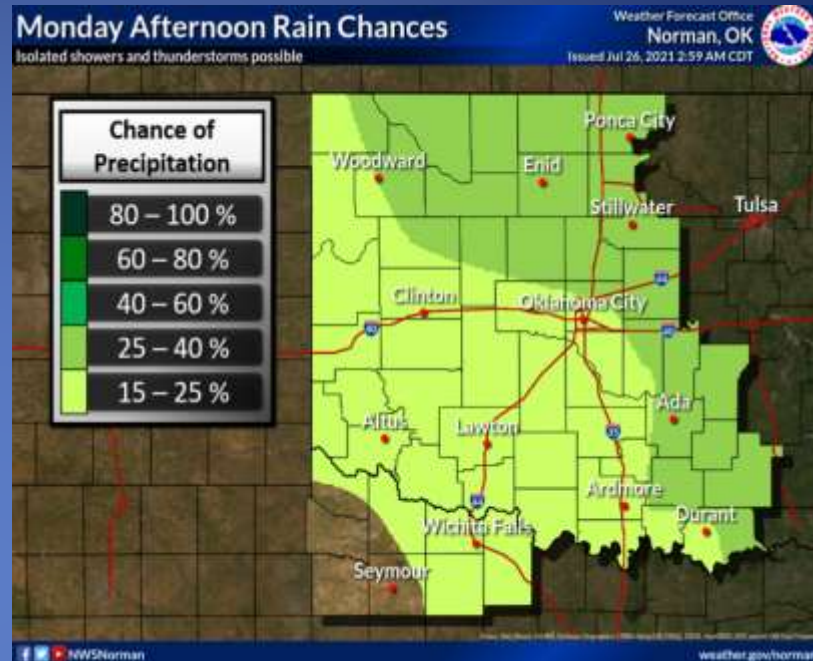

Isolated to scattered showers and storms will be possible this afternoon across the Panhandles. Lightning will be the main concern, but strong winds will also be possible.

Thunderstorms chances increase going into the evening, mainly in the northwest combined Panhandles. Lightning, gusty winds, and possibly torrential rainfall will be the main threats.

# Hazardous Weather

Isolated to widely scattered showers and thunderstorms are expected this afternoon and evening. The most intense storms could produce brief heavy rain, gusty winds, small hail and dangerous lightning. Highs will reach the 90s, with parts of the Rolling Plains peaking near 100 degrees.

Some isolated showers and storms could develop across the area this afternoon.

# Hazardous Weather

Another hot day can be expected to start the week with highs near 100 and heat indices near 105. There is a low chance for thunderstorms mainly north of I-20 this afternoon, but rain chances will remain less than 20% for most areas. A Heat Advisory remains in effect for part of the region through 7 pm tonight.

A Heat Advisory has been issued for the entire area Monday as heat index values are expected to climb to between 105 and 108 degrees areawide.

# Hazardous Weather

High temperatures will again climb into the mid to upper 90s across the Four State Region this afternoon. A Heat Advisory is in effect from noon to 7:00 PM.

Heat Advisory today from Noon to 7 pm CDT. Afternoon heat index readings are expected to be up to 110 degrees. Follow summer heat safety rules and stay hydrated.

# Hazardous Weather

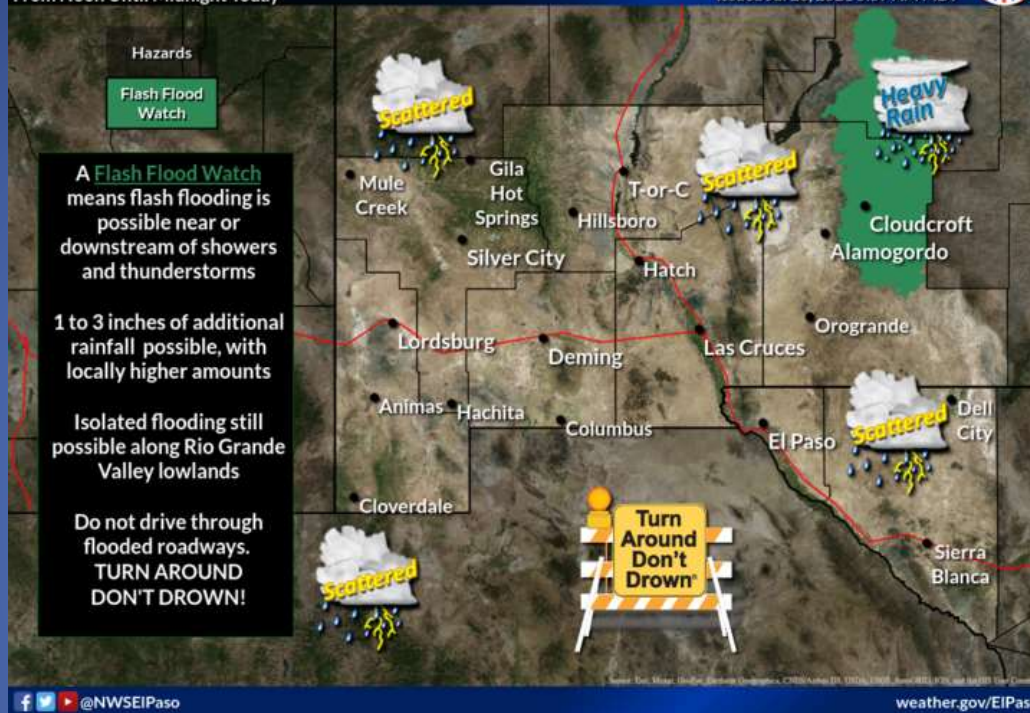

## Flash Flood Watch

From Noon Until Midnight Today

Weather Forecast Office

El Paso, TX

Issued Jul 26, 2021 5:57 AM MDT

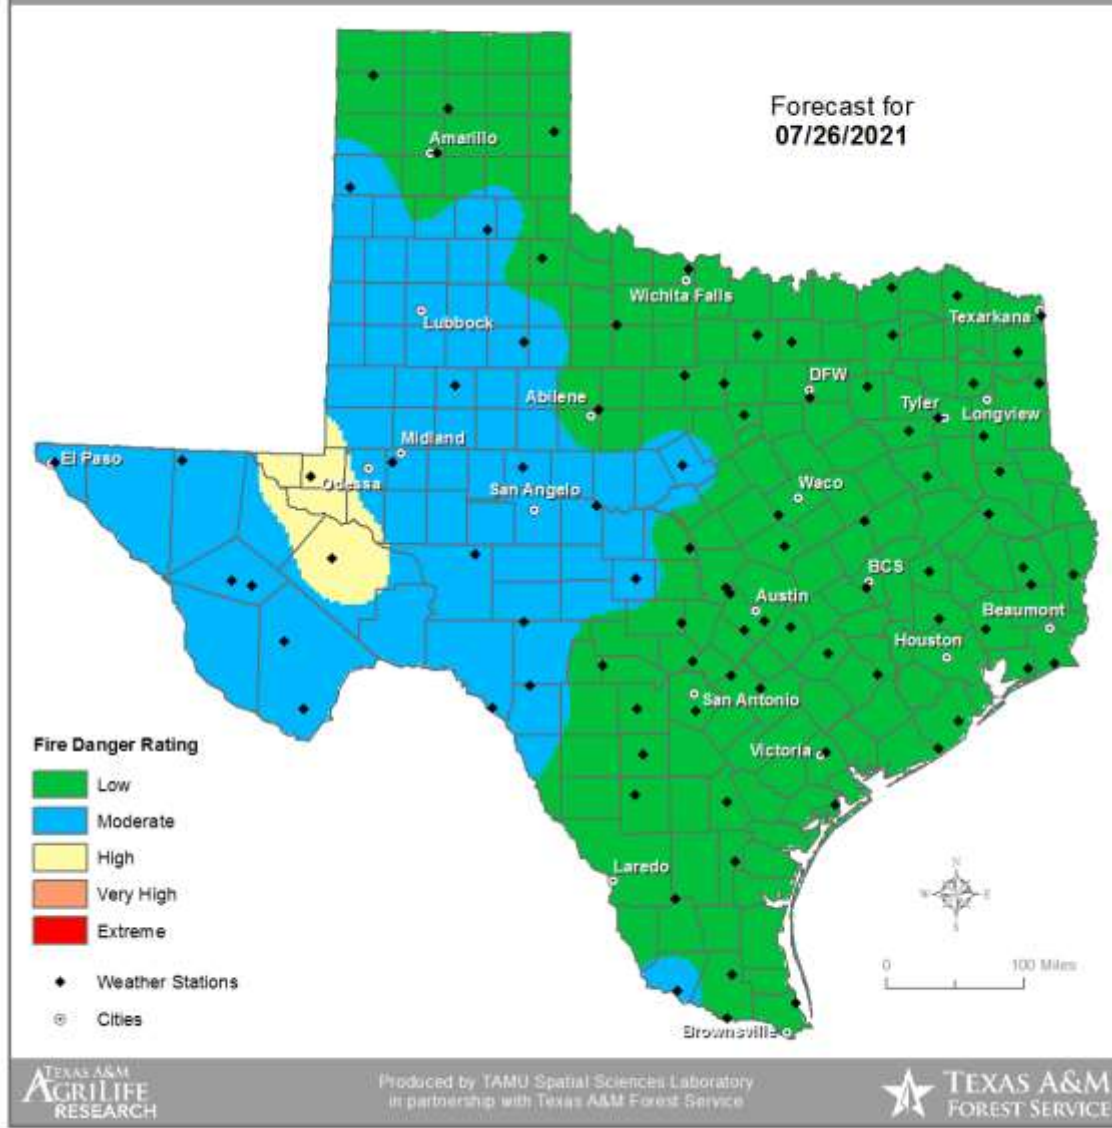

**Scattered showers and thunderstorms are expected to develop this afternoon and continue on Saturday, which will be capable of producing heavy rainfall and flooding. Rain totals of 1 to 3 inches are possible across portions of the Sacramento Mountains and Lincoln National Forest. This could lead to flash flooding, especially in areas that have already received a lot of rain. Campers and hikers should be cautious when outdoors and stay away from drainages and low lying areas. Please do not drive through flooded roadways. Turn around. Don't Drown.**
